

# THE BLAIRMORE ENTERPRISE

VOL. XVII., NO. 26.

THE BLAIRMORE ENTERPRISE.

THURSDAY, JULY 1, 1926.

## K. OF F. MEMORIAL SERVICE NEXT SUNDAY

A public memorial service will be held in the Orpheum Theatre on Sunday next, under the joint auspices of Livingstone Lodge No. 22, Knights of Pythias, and Greenhill Temple No. 10, Pythian Sisters.

The service will commence at 3 p.m. The speaker will be Rev. Bro. Marr, of Calgary. The United church choir will be in attendance.

## HIGH HONOR FOR ALBERTA OFFICIAL

EDMONTON, June 25.—R. B. Owens, chief sanitary inspector for the province, has been notified by the Royal Sanitary Institute of Great Britain of his election as a member of that body, entitling him to the degree of F.R.S.I. This honor has been conferred upon Mr. Owens in recognition of the outstanding character of his work as a sanitary engineer. One of the achievements to his credit, knowledge of which has spread to the other side of the ocean, is the invention and perfection of the sewage disposal system now widely in use throughout western Canada.

The most surprised man on the school board when the appeal of the teaching staff for salary increase came before that body was Mr. Frank Wheatley, who figured that full valuation had already been placed upon the services of the staff.

## PERDUE GUILTY OF MANSLAUGHTER

Karl Perdue, who was tried at Lethbridge last week on the charge of murder in connection with the death of his chum, Walter Vere, last February, was found guilty of manslaughter by the jury on Wednesday evening.

Vere was killed in the home of Constable Carr, in Lethbridge, and the evidence indicated that the two young men had gone to the house in search of another man, who had formerly lived there. The jury found that Perdue committed the deed while intoxicated. He was sentenced to seven years.

## WILL HAVE SWIMMING POOL

The town council has become interested in the great need for a swimming or bathing pool for Blairmore, and at a recent meeting decided to look over several proposed sites, with a view to taking immediate action, if only on small scale.

We understand that a site between the tourist campsite and the main river has been decided upon and work of excavating will begin at once.

It is expected to have a pool in readiness before the middle of July.

Practically two million dollars will be spent within the next year on rolling stock, re-railing and general improvements to the Newfoundland railway.

## FARMER GOVERNMENT RETURNED TO POWER

In the elections on Monday the United Farmers of Alberta practically duplicated the big landslide of 1921 and were again strongly returned to power, with the following approximate results: Government 42, Liberals 9, Conservatives 5, Labor 2, Independent-Labor 1, Independent 1.

The Conservatives returned their leader, Mr. A. A. McGillivray, in Calgary; also John Irwin, a merchant. Up to the latest report, Capt. Joseph T. Shaw, the Liberal leader, was still leading in Bow Valley and would likely be elected.

In Rocky Mountain, Phil Christophers had a safe majority over his Conservative and Liberal opponents, the latest figures standing at approximately 1770, 720 and 700, respectively.

Complete returns for the province are not yet to hand, some outlying sections are to be heard from, but the return from these are not likely to seriously affect the present apparent results.

Mr. Christophers is to be congratulated upon again being returned. Phil fought a clean fight and claims that his only indebtiness in connection with the campaign is to Mr. J. McKinley Cameron, of Calgary, who came to the Pass and through his remarkable ability at "mud-slinging" turned over many votes for Chris that otherwise would have been lost.

Following the defeat of Hon. Alex Ross at Calgary, Phil is looked upon as the most likely timber for his successor as minister of labor and public works.

## ELKS' DECORATION DAY SERVICES IMPRESSIVE

The local Lodge of Elks observed Sunday last as annual Memorial day.

Members of the lodge assembled at the Elks' hall at 2 p.m., and headed by the Coleman town band, proceeded to the general Protestant cemetery, where a wreath was placed over the grave of their late brother, Harry J. Benson. Very fitting addresses were delivered by Rev. W. T. Young, pastor of the United church; Bro. W. I. Huston, lodge chaplain, and Bro. J. E. Gillis, exalted ruler.

Bro. Huston's remarks were in part as follows:

"We are gathered here to do honor to the memory of our brothers who are no longer with us, and who, having accomplished the tasks that were set for them here, have gone to join a greater lodge. It is a privilege for us to assemble and pay a small tribute to them, and in doing so, we are forcibly impressed with the teachings of our order—that the virtues of purity and fidelity should be so exemplified in our lives that when the time of our departure from this earth is at hand, our lives should leave a sweet incense behind, so that we may not be forgotten among men."

Appropriate hymns were sung, accompanied by the band.

The procession then wended its way to the Catholic cemetery, where similar services were conducted around the grave of Bro. L. Duthie, the speakers on this occasion being Rev. Father Moriarity and Exalted Ruler Gillis.

In the course of his remarks, Mr. Gillis referred to the fact that during nineteen months' life of Blairmore Lodge of Elks, we had lost three highly esteemed members through very tragic circumstances, namely, Bros. Denis P. Fleming, Harry J. Benson and Louis Dutil. Their presence and counsel were keenly missed by the members who had thus met to help perpetuate their memory. Two of the deceased were laid to rest in Blairmore's neighboring cemeteries, while the remains of Bro. Fleming occupied a place in a cemetery in

## MEETING OF BLAIRMORE SCHOOL BOARD

The regular monthly meeting of the Blairmore Board of School Trustees took place at the secretary's office on Friday evening last, attended by Chairman Chappell and members Pinkney, Beebe and Wheatley.

The minutes of previous meeting were approved as read, with exception of a clause respecting special allowance to presiding examiner; pending the latest report, Capt. Joseph T. Shaw, the Liberal leader, was still leading in Bow Valley and would likely be elected.

In Rocky Mountain, Phil Christophers had a safe majority over his Conservative and Liberal opponents, the latest figures standing at approximately 1770, 720 and 700, respectively.

Complete returns for the province are not yet to hand, some outlying sections are to be heard from, but the return from these are not likely to seriously affect the present apparent results.

Mr. Christophers is to be congratulated upon again being returned. Phil fought a clean fight and claims that his only indebtiness in connection with the campaign is to Mr. J. McKinley Cameron, of Calgary, who came to the Pass and through his remarkable ability at "mud-slinging" turned over many votes for Chris that otherwise would have been lost.

Following the defeat of Hon. Alex Ross at Calgary, Phil is looked upon as the most likely timber for his successor as minister of labor and public works.

The following teachers signified

their willingness to return for the fall term, but asked for salary increases of \$100 and upwards: Miss M. Atkinson, Miss C. Cheyman, Miss M. E. Minicaster, Miss Fitzgerald, Miss Mooney, Miss M. McDonald, Mr. J. M. Rothney, Miss M. I. Hall.

Miss Hall, Miss Crystal and Mr. Rothney claimed to have been given verbal understanding upon taking positions here that such increases would be coming to them.

While other members of the board appeared willing to give these applications immediate consideration, Mr. Wheatley objected and claimed that time should be taken and that the matter should be dealt with at a meeting to be called later.

The Canada Cement Company asked for reduction in assessment of their local property, claiming that machinery valued at \$35,000 had recently been removed. The board felt that a reduction of assessment of improvements to \$80,000 was reasonable.

## KINES-OVERTON

The marriage was quietly solemnized at Calgary, on Tuesday, June 22nd, of Miss Gertrude Overtor, daughter of Mr. and Mrs. Albert Overtor, Hanna, to Dr. R. M. Kines, of Coleman, Alberta. The bride, who is well known here, has occupied the position of matron of the Miner's Hospital, Coleman, at which point the groom has a very successful practice.

The happy couple have left for the coast for an extended trip through British Columbia and on down through the States. Upon their return, Dr. and Mrs. Kines will reside in Coleman—Hanna Herald.

The local Elks gave in the neighborhood of \$2200 by way of charity since their institution nineteen months ago.

far away Nova Scotia.

The children's choir of St. Anne's church rendered two selections during this service.

The singing of the National Anthem concluded both services.

## ODDFELLOWS AND REBEKAHS HOLD MEMORIAL SERVICES

A change of name in the operation of the Crown's Nest division of the C.P.R. took place last week, when a new system was inaugurated whereby the engines pulling Nos. 87 and 88, the west and east bound passenger trains, respectively, go from end to end of the run between Lethbridge and Sirdar. Thus, instead of an engine stopping over in Cranbrook for twenty-eight hours, it is "kept rolling." More motive power is thus available for use on the division. —Kimberley Press.

The ritualistic service conducted at the hall was impressive. Following this service the members, about fifty strong, formed in procession and marched to the Protestant cemetery, here led by the Coleman town band. Here the graves of departed brothers and sisters were decorated with flowers and appropriate services were held.

Returning to the hall, refreshments were served. Quite a number of visitors were present from Coleman. A committee from Blairmore I.O. O.F. Lodge was assigned the duties of decorating the graves of Bro. John Hood, at Hillcrest cemetery, and Bro. Pete Pistor in the Blairmore Catholic cemetery.

## TRADE MARK YOUR MEAT

Oatmeal was just plain oatmeal until some bright mind produced a superior grade in an attractive package, gave it a name and sold it for a higher price.

Apply this sound selling policy to your business by using Appleford Sani Wraps. They "trade-mark" your meat, protect its flavor and advertise your name and selling message.

Write to-day for full information and prices.

## Agricultural Wealth Of The Prairies

In this year when the twin Provinces of Alberta and Saskatchewan will celebrate their coming of age as autonomous units in the Canadian Confederation, it is not only interesting but appropriate to note the truly amazing progress made by Western Canada. In a space of time so brief as to be considered but a passing moment in the life of a nation. When the West was first opened to settlement with the advent of the C.P.R., predictions were made that a great future awaited it, and these were renewed when twenty-one years ago the Old North West Territories passed and the Provinces of Saskatchewan and Alberta came into being. But even the most optimistic could hardly foresee such growth as has actually been recorded.

Twenty-one years ago Manitoba had a population of about 300,000, and in creating the two new Provinces they were each credited with an estimated population of 250,000. As a matter of fact the census the following year disclosed a much smaller figure. Compared with less than 700,000 population in the three prairie provinces in 1905, it is confidently predicted that this year's census will show a population of approximately two and one-half million.

According to a recent estimate by the Dominion Bureau of Statistics, the gross agricultural wealth of Canada in 1926 was \$7,823,612,000, about one-half of which was owned by Manitoba, Saskatchewan and Alberta. Although the value of the three prairie Saskatchewan occupies second place in gross agricultural wealth, being exceeded by Ontario only, while Alberta and Manitoba occupy fourth and fifth places respectively. The gross agricultural wealth of Saskatchewan last year is placed at \$1,228,323,000. Alberta at \$1,032,157,000, and Manitoba at \$865,165,000. These are remarkable figures for such a young country, still in the initial stage of its development.

In annual agricultural revenue the strong position held by Western Canada is even more strikingly indicated. In land values and value of farm buildings the older and more populous provinces of Ontario and Quebec naturally outrank the West, but in the annual value of agricultural production the Western Provinces take a high place. The total agricultural revenue of Canada in 1926 is placed at \$17,935,677,000, of which the three prairie provinces produced \$803,730,000 Saskatchewan being credited with \$416,922,000, or only \$112,000,000 less than Ontario; Alberta with \$245,662,000 and Manitoba \$142,046,000.

In field crops, Saskatchewan comes first with Ontario second, Alberta third and Manitoba fourth. — Ontario and Quebec lead in farm animals with Alberta third. In poultry and eggs Ontario and Quebec also lead, with Saskatchewan third. Alberta is fourth in the production of wool, while Manitoba occupies third place in the production of honey. The Western Provinces are out of the running in the production of fruits and vegetables, leading in these lines belonging to Ontario followed by British Columbia, Quebec and Nova Scotia.

Considering the fact that the new western states of the West were not quite ten years old when the Great War broke out, and the marked and distinct wars which have since intervened, the prospects of the West must be regarded as altogether remarkable. It speaks volumes for the capacity of the country itself and the capabilities and energies of the people, while giving promise of a growth, development and prosperity within the next decade or two unsurpassed in all the past history of the Dominion.

There has been a consistent rise in agricultural revenue since 1921 following the unprecedented high war prices of 1918, 1919 and 1920. Equally gratifying is the definite tendency towards a greater diversity of crops. No longer is it possible to sum up Canadian agricultural revenue under the two headings of field crops and livestock. Dairy products, poultry and eggs, honey, fur farming and other pursuits now represent a respectable sum in the total of the Dominion's annual production of wealth.

One year hence Canadians will celebrate the diamond jubilee of Confederation. The Dominion is moving forward to observance of that anniversary with ever increasing confidence and pride in the country, under conditions of expanding trade, increased development of natural resources, greater industrial activity, marked advances in production along many lines, and particularly in agriculture and allied pursuits, a growing population, and increased financial power and general prosperity.

The Western Provinces are only just beginning to make their contribution to the growth and prosperity of the Dominion. No section of the Dominion will have a greater contribution to make in the years immediately ahead, and not in material things alone will that contribution be made, but in leadership in all things which make a people truly great, in statesmanship, in the arts and sciences, in the world of religion and social service. The record of the past two decades is but the promise of the future.

### Is Considerate Of Police

French President Does Not Keep Gendarmes Up Late

When President Doumergue of France is at the presidential residence, residence at Rambouillet, he declines all invitations which keep him away from the chateau in the evening. "You know," said the president, in explaining why he had to decline an invitation, "when I leave Rambouillet after dark the gendarmes all along my route are called out and are not allowed to go to bed until I am back home again. So I prefer not to go out. It is not I who call them out. It is a far more influential person than the president, and over whom, alas, I have no power. It is the Prefect of Police."

### Stiff Joints

...and sore muscles are quickly relieved by a few applications of Minard's.

W. N. U. 1038

### Weather Not Cause Of Colds

Over Fatigue Exposes System to Ever-Present Germs

The time-honored notion that colds are the most part caused by intense weather is ridiculous in a bulletin issued by the United States public health service.

Cold in the head, says the bulletin, is unquestionably the consequence of over-fatigue, which exposes the system to the bacilli that float constantly about. The majority of colds are "caught" during the months when little outdoor exercise is taken.

It is not cold or damp which causes coryza (the technical word for the ailment); but the substitution of stale air for fresh. — Detroit Free Press.

### Better C.N.R. Earnings

The gross earnings of the Canadian National Railways for the week ended June 7, 1926, were \$5,048,860, as compared with \$4,029,141 over the same month of 1925, an increase of \$1,019,719, or 25 per cent.

Horses in England are decreasing at a rate of nearly 70,000 a year.

"So the shark took your leg?"

"Yes, but I wanted a new one, anyhow, the old one being too short."

### Industrial Research

National Council of Women Advocate Retention of Trained Men and Women

A report prepared by Mrs. Ore May, of Montreal, for the committee on immigration and colonization, was read by Mrs. Charles Thorburn at the National Council of Women conference held at Vancouver. The report pointed out that statistics showed that the universities of British Columbia, Saskatchewan, Alberta, Queen's and Dalhousie alone have contributed a total of 1,108 trained graduates to the United States in less than ten years.

It was resolved that the National Council of Women, endorse the proposed legislation as taken from the speech of the then member for the matter of an industrial research organization, and to petition the government to subsidize the said organization for a period of years with the view of retaining the trained technical men and women to build up the nation.

### Swollen Joints, Quickly Limbered Up

### Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just a few days. Being thin and yet an oil preparation it penetrates quickly, and down it sinks into the tissue, carrying its healing, soothing action wherever it goes. For stopping a slight neuralgic or nerve pain, for easing a stiff muscle, for removing stiffness, pain, soreness, stiffness, all vanish before the magic power of this wonderful liniment. Nearly fifty years of experience proves the merit of Nerviline, which is sold everywhere in large 35 cent bottles.

### The Decline In Democracy

Representative Government Would Appear To Be In Serious Danger

It is becoming more and more evident that representative government is in very serious danger. It has been reduced to blind intents and purposes in Italy, Spain, Russia and in Greece; both in France and Germany its future cannot be regarded entirely confidently; and even in this country and the United States anti-democratic forces have manifested increased and multiplied since the war.

—Daily News.

— When any family becomes ill, when their children are troubled with worms and lose no time in applying Miller's Wards Powders, it is most effective. It is also in clearing the system of worms and in restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

### Says Plants Have Brains

Noted Indian Physiologist Has Conducted Many Experiments

Sir Jagadis Chandra Bose, the noted Indian plant physiologist, has perfected a device that he says, accurately measures the nervous impulses of a plant's fibres. He contends that vegetables feel, react and almost think in the same way as animals, but to a lesser degree. As a result of his experiments, Sir Jagadis asserts, he has become convinced that plants have brains, and that their thought processes can be ascertained.

### Canadian Weekly Newspaper Association

Officers Are Elected at Annual Convention Held in Quebec

The seventh annual convention of the Canadian Weekly Newspaper Association was held recently in Quebec. Officers for the coming year were elected as follows:

President J. A. MacLaren, of the Examiner, Barrie, Ont.

First vice-president, W. S. Wynd, of the Enterprise, Yorkton, Sask.; second vice-president, S. Almstrom, of the Graphic, Campbellton, N.B.

The following were elected as directors of the association: Hugh Savage, Leader, Duncan, B.C.; R. E. White, Sentinel, Kamloops, B.C.; H. C. MacCrae, Herald, Vancouver, Alta.; L. D. Neist, Mail, Baseline, Alta.; S. J. McDonald, Courier, Unity, Sask.; S. J. Dornan, Despatch, Alameda, Sask.; D. C. Dunbar, Mercury, Estevan, Sask.

### Boy War Veteran Dies

Youngest Member of Australian Imperial Forces Was Great Sufferer

Forty operations in eight years failed to save the life of Bernard Haynes, wounded war veteran. Because he enlisted in the Australian Imperial Force at the age of 14 and so became the youngest Anzac to go to active service, Haynes became "Baby" to his intimates.

A German shell burst near him at Bapaume in July, 1917, and from that date until his death recently, Haynes was never off his back.

He was able to return to Merton, where he spent his energies in getting well again.

Operations became almost a monthly event with him, and he bore them all with a stoical cheerfulness that won him the love of his nurses and the praise of doctors invited to suffering.

### Has Spent Thirty Years In Exploring

Most of Amundsen's Work Done Around North Pole

In two months time Amundsen will celebrate his 5th birthday and he can look back on a record of exploration at both ends of the earth, to which he has devoted 30 years of his life, and which has added enormously to our knowledge of the Arctic and Antarctic.

Most of his life's work has been done around the North Pole, where 20 years ago he located the Magnetic Pole and found the Northwest Passage. In 1911 he conquered the South Pole, and now he has surveyed hundreds of thousands of square miles of the unknown Arctic, a task accomplished in three days, which, but for the conquest of the air, he was prepared to undertake by drifting with the Polar current in the Frans for many years.

### Oxford Professor Self-Taught

Started Work In Stone Quarry At Age Of Six

In "John o' London's Weekly" Dr. Joseph Wright, M.A., tells the amazing story of his rise from donkey-boy in a Yorkshire quarry to Professor of Comparative Philology (science of language) at the University of Oxford, a position he has just resigned.

At six he went to work in the quarry, taught himself to read and write, and at 12 began to teach schoolboys.

Later he taught himself Sanskrit, Latin, Greek, French, German, Gothic, Old Bulgarian, Lithuanian, Old Norse, Old Saxon, Old High German, Middle High German, Old Icelandic, Anglo-Saxon and Old English.

As a result, at the age of 46 he became an Oxford professor and one of the best-known grammarians in the world.

Summer Complaint or Stomach Pain safely, quickly relieved by

Chamberlain's Colic & Diarrhoea Remedy

### Why Water Will Replace Gasoline

Paris Scientist Working On Discovery For Auto Fuel

The town pump is coming back to usefulness. A Paris scientist is working out a discovery which, if it can be applied, promises to revolutionize economic production for the world. According to the professor, it is a mere matter of time and a question of making the necessary calculations in order to catalyze water and build a water-driven internal combustion engine, or to catalyze any other body to transform the forces produced into energy driven, productive machinery.

"We shall catalyze water," he says, "so you will have automobile drivers in bicycled cars." That is a mere matter of time to establish plans. As soon as calculations are made to substitute water for gasoline, France will be freed from foreign bondage for her motive power. Preliminary formulas will be established. They will revolutionize modern industry."

Kingston British Whig.

### DELICATE GIRLS NEED NEW BLOOD

Which Can Be Had Through Use of Dr. Williams' Pink Pills

Nature intended every girl to be happy, active and healthy. Yet too many of them find their lives saddened by the loss of their health. Some cause the blood to stop flowing. All those with colorless cheeks, dull skins and listless eyes are in this condition because they have not enough red corpuscles in their blood. They suffer from depressing weariness and periodic headaches. Dark lines appear around their eyes and nostrils visibly during the night exertion, and they are often attacked with fainting spells. These are only a few of the members of bloodlessness. You will be glad to learn that Dr. Williams' Pink Pills did more for me than all the other medicine I took, and I cannot praise them too highly. You can get one of these boxes of 500 pills at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

The thing we need most in life is someone to make us do what we really can do.

A good resolution affords the maker great consolation, even though it lasts only five minutes.

For the first time in history Arctic explorers will meet in convention within the next few months. Their object will be the mapping out of a scientific conquest of the frozen regions of the north.

The United States, Great Britain, Russia, Scandinavia, France, Germany, Austria, Hungary, Italy, Spain, Portugal, and Australia will be among those represented. Preliminary plans for the meeting include the completion of arrangements for a dirigible expedition to the North Pole.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

The thing we need most in life is someone to make us do what we really can do.

A good resolution affords the maker great consolation, even though it lasts only five minutes.

For Cataract — It is one of the oldest recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can externally. We refer to cataracts as being the most prominent being sleeplessness, pain, headache, and want of energy for all the ordinary functions of the body. The electric oil is most effective in all such cases as increased vitality, vigor, and strength and energy to do the work that may be more easily performed by means of the electric oil.

### World's Poultry Congress

Exchange of Practical Ideas in Poultry Raising

Poultrymen and farm experts from the leading nations of the world will assemble at the World's Poultry Congress to be held at Ottawa, Canada, in the summer of 1927.

The World's Poultry Congress was organized for the exchange of the most practical ideas in poultry raising. It also, like all world's congresses, affords a means of promoting understanding and good-will among the nations.

The congress in Canada next summer will be the first held on this side of the Atlantic, or in any English-speaking country.

The first congress was held at The Hague, Holland, in 1921, and the second at Barcelona, Spain, in 1924.

The showing made by Canadian exhibits at the Barcelona Congress was such that Canada was selected as the country of meeting of the World's Poultry Congress.

The selection was strongly supported by delegates from both the United States and Great Britain.

Ottawa, the capital of Canada, has been chosen as the city in which the congress will be held.

The thing we need most in life is someone to make us do what we really can do.

A good resolution affords the maker great consolation, even though it lasts only five minutes.

For the first time in history Arctic explorers will meet in convention within the next few months.

Their object will be the mapping out of a scientific conquest of the frozen regions of the north.

The United States, Great Britain, Russia, Scandinavia, France, Germany, Austria, Hungary, Italy, Spain, Portugal, and Australia will be among those represented.

Preliminary plans for the meeting include the completion of arrangements for a dirigible expedition to the North Pole.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

The thing we need most in life is someone to make us do what we really can do.

A good resolution affords the maker great consolation, even though it lasts only five minutes.

For Cataract — It is one of the oldest recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can externally.

No matter what may be the cause they are almost always the same, namely, the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

Now, the body's power to resist disease is the body's power to resist disease.

## WESTERN CANADA GOOD FIELD FOR OVERSEAS TRADE

Montreal—Canada, admittedly the most difficult field in the British empire for the exporter in Britain because of stiff competition, is commanding increasing attention among manufacturers across the water, and more firm principals personally are visiting the Dominion preparatory to marketing British goods here. A. E. Pollard, new British trade commissioner for Western Canada, declared here.

Mr. Pollard, who for the past five years has been in charge of Canadian affairs in the overseas department of the British Board of Trade, is enroute to Vancouver, where he will establish headquarters. He follows L. R. Beale, who has been transferred to New Zealand.

"Western Canada, perhaps, offers a better field for the exporters in Britain," he said.

"Out west we have a finer chance. The Panama Canal route has given us a cheap haul to the Pacific coast and the British preferential tariff aids us. Results are most encouraging."

### Censorship Of Reading Matter

#### Women's Press Club to Offer Competition With Daily Newspaper Association

Toronto—Much of the crime among youth of Canada might be eliminated if salacious literature could be banned from circulation, Judge Emily Murphy, Edmonton, said before the triennial convention of the Canadian Women's Press Club. Judge Murphy was speaking in support of a resolution proposed in by Mrs. May Armistead Smith of Calgary, asking for censorship of all Canadian publications except. It was decided to appoint a committee to offer co-operation with the Canadian Daily Newspaper Association which is acting in this matter.

Officers elected for the coming year were: President, Miss May Gladman, London, Ont.; provincial vice-presidents include: Manitoba, Miss Carolyn Cornell; British Columbia, Mrs. Isabel Ecclesone Mackay; Alberta, Miss Edna Kells, recording secretary; Miss Elizabeth Long, Winnipeg.

Miss Laura Allan, of the Wilson Publishing Company, Toronto, was elected to the newly-created joint office of secretary-treasurer.

Judge Emily Murphy was elected historian. Miss Kenneth Haig, retiring president, was elected honorary president.

### Thinks Immigration Should Be Restricted

#### President of Canadian Trades Council Speaks At World Congress

London—Tom Moore, president of the Trades and Labor Congress of Canada, was one of the principal speakers at a session of the world labor migration conference.

He declared that Europe had come to Canada in the last half-worked long hours and had returned to their homes to spend their earnings. For this reason, the Canadian trades unions were opposed to this kind of exploitation.

Mr. Moore urged restriction of the present unregulated influx of immigrants.

Dr. Erat, one of Australia's prominent labor men, declared a great deal of unemployment in Australia was due largely to unrestricted immigration.

Australian labor, he said, was especially Italian, who worked for little wages, and retained ideals antithetical to the best interests of labor.

### Resumed Air Mail Service

#### Man Aged Sixty-eight Substitutes For Regular Pilot

Chicago, Ill.—A 68-year-old aviator pilot hopped off from Maywood Field resuming the Chicago and Twin Cities Air Mail Line, which had been disrupted for a day by failure of the regular pilots to report for duty. The aged pilot was Charles Dickinson, contractor, who declared that the temperament of a few youthful pilots could not hold up the air mail to Minnes.

**Ship Recovers Anchor**

Port Arthur, Ont.—The steamer Glenelge, on its last trip to Port Arthur, lost its anchor and was unable to spite of diligent search, to recover it. Recently the Glenelge came into port and dropping its new anchor, found it hooked onto the old one, which was thereby recovered.

W. N. U. 1935

### Will Fight Miners' Leaders

#### Lord Birkenhead Charges A. J. Cook With Attempt to Blackmail Society

London—Following closely upon a decision of the Labor party to oppose strenuous opposition to the government's new bills which have as their purpose a re-organization of the mining industry, the Earl of Birkenhead, secretary for India, has delivered a verbal broadside against A. J. Cook, secretary of the miners' federation.

Cook was charged by Lord Birkenhead of aiming at the destruction of the coal mining industry and nationalizing it. Lord Birkenhead said he and his colleagues fully determined that if they were driven to it by "this attempt to blackmail society" by men who declare they have a strange hold on the vital chords of industry, we shall once again, sorrowfully but resolutely, gird ourselves for a great struggle. We shall not permit the nation to be destroyed."

"We who have broken down every step in Europe," Lord Birkenhead added, "will not be broken down by men who take their bidding from a discredited revolutionary junta in the most poverty-stricken country in Europe."

### Union Of Municipalities

Seattle, Wash.—Over 100 delegates in attendance at the "Union of Municipalities Association annual convention." Twenty-one years ago the association was created and during the sessions many congratulations were showered on the officers and the membership for the work it had done during its life.

Chief Justice Brown of the Court of King's Bench, the chief speaker at the opening meeting, sounded the keynote of the work of the association when he spoke of the responsibilities of the thousands of men in the provinces charged with municipal effort and enterprise. He congratulated the municipalities of the province on having a clearing house for opinions and discussions and ventured the opinion that this particular organization and others engaged in municipal work were part of the foundations upon which the province has been built and which built.

### Elevators Practically Cleared

Saskatchewan in Good Shape to Handle New Crop

Regina—Saskatchewan's elevators are now ready to receive in their thousands bins the fruits of the forthcoming 1926 crop.

Reports incoming at both the Canadian Pacific and Canadian National Railway state that all grains are now practically cleared out and the elevators ready to store the new crop.

Less than 5,500 bushels of grain are still held in elevators in the Regina division of both railways, many of the points holding out until the coming 1926 crop.

Practically no loading is being done at any point despite the fact that the wheat pool culti comes into force on July 15, the date on which all 1925 wheat must be in the country elevators and settled for or billed out.

### Canada and the League

#### League of Nations Has Now Cost Canada \$1,500,000

Ottawa—After stressing the importance of the achievement of the League of Nations, Sir George Foster in the Senate declared it was the duty of the government to put in the hands of members of parliament each year details of the government's relations with the league. He had informed the senate each year of the league's work, but said Sir George, the correspondence between the government and Dr. Riddell, liaison officer at Geneva, should be available to parliament.

Senator Casgrain replied said that Canada had spent \$1,500,000 on the League of Nations, and while the League was seven years old, there were more men under arms today than before the Great War. It has not been conducive to peace, he said.

#### Missing Evangelist Found

Douglas, Ariz.—Positive identification of a woman here as Mrs. Almee Scampte McPherson, Los Angeles, Calif., who disappeared dropped there May 1st, has been made over the telephone by Mrs. Minnie Kennedy, the evangelist's mother, in conversation with William F. McCaffery, editor of the Despatch.

#### Rural Credit Bill

Ottawa—The government's rural credit bill passed the senate committee on banking and commerce, and now stands for third reading in the upper house.

### Compromise On New Flag

#### South African Government Likely to Accept Suggestion of Labor Party

Capetown, South Africa.—The controversy over the government's proposed new South African flag, the design of which would have excluded the Union Jack, has assumed a new aspect.

The national council of the Labor party a few days ago passed a resolution that there should be equal official recognition of two flags, one a symbol of the empire and the other a symbol of South Africa nationality.

A delegation from the council has recently interviewed Hon. Tielman Roete, minister of justice, and the executive of the Nationalist party at Pretoria. The latter have expressed complete satisfaction with the Labor party council's resolution, and, moreover, have pledged the full support of the Nationalist party to this resolution.

It is by means of a pact between the Nationalist and Labor parties that the government of Premier Hertzog is to power, the government may accept this compromise.

### Locarno Peace Pact

#### London Is Interested in the Canadian Viewpoint

London—The debate on the Locarno peace pact in the Canadian House of Commons in connection with Prime Minister Ramsay Macdonald's motion that parliament ratify the Locarno treaty before it can be ratified by the other powers of the League of Nations.

The Express declares that a useful purpose would be served if all the parliaments of the empire, including the British House of Commons, followed Canada's example in face of the obligations involved.

### RAILWAY RATE CASE IS ARGUED BEFORE BOARD

Regina, Sask.—Suggestions for the removal of the alleged discrimination in freight rates favoring Winnipeg over other prairie distributing points was made to the Board of Railway Commissioners by W. H. McEwen, representing for the province of Saskatchewan on behalf of the boards of trade of Regina, Yorkton and Moose Jaw. The discrimination was said to consist in the fact that Winnipeg had the advantage of a rail connection with the United States, while Yorkton and Moose Jaw had the advantage only as far as Winnipeg. These rates were calculated on an actual mileage.

The difference, said Mr. McEwen, in filing comparative statements, meant that on goods shipped from Fort William over the C.P.R., Winnipeg had a rate reduction of 23 per cent, while westward this reduction decreased until by the time it got to Moose Jaw, it was 10 per cent, and at Calgary 4.4 per cent.

What the province wanted, said Mr. McEwen, was removal of the unjust discrimination. How this was to be accomplished was up to the board, he said, adding that the variation in rates should be offset by removing the facilities of carriage altogether and setting up a new freight rate structure which would divide the advantage equally among all the prairie points seemed to be the most equitable.

B.C. Lumbermen's Wage

Vancouver—Effective November 4, all men engaged in the lumber industry of British Columbia will receive a minimum wage of 40 cents an hour, according to an announcement made by the board charged with administration of the new male minimum wage act.

Approximately 40,000 persons are employed in these operations.

### LLOYD GEORGE IS NOT LOOKING FOR LEADERSHIP

London—Speaking on the future of Liberalism at a luncheon of the National Liberal Club, former Premier Lloyd George, Liberal parliamentary leader, kept his audience in roars of laughter by humorous sallies and dry digests at his political opponents.

He declared his ambition was not for leadership, but for service, and added: "At the same time, I do not want to ruffle anybody's feathers, but I want to say quite firmly that I am not going to allow myself to be driven out of the Liberal party."

A delegation from the council has recently interviewed Hon. Tielman Roete, minister of justice, and the executive of the Nationalist party at Pretoria.

The latter have expressed complete satisfaction with the Labor party council's resolution, and, moreover, have pledged the full support of the Nationalist party to this resolution.

### Western Financing Methods

#### Municipalities of Western Canada Are Showing the Way to Those of East

Vancouver—The municipalities of Western Canada are showing the way to those of Eastern Canada in the handling of their finances, declared C. P. Bell, one of Canada's leading authorities on public financing, on his arrival in Vancouver as a member of the Investment Bankers' Association, which recently held its annual meeting at Jasper Park.

"In British Columbia, in particular," he said, "the municipalities have been reducing their debt in actual amount, and the same is true in Saskatchewan. In Eastern Canada, especially Ontario, the reverse tendency is.

"The provincial governments of the western provinces have also been showing a healthier tendency in the handling of their finances."

About 100 members of the association are spending several days in Vancouver before the eastern members return home. A few of their number, including President R. H. Daly, went north to Alaska from Prince Rupert.

### To Settle Vacant Lands

#### Hudson's Bay Company Will Formulate Immigration Policy

Victoria, B.C.—The Hudson's Bay Company, which owns 10 million acres of land in Western Canada, is gathering material on which to formulate an immigration and settlement policy, it became known here, with the arrival of J. McWhirter, of the company's London, England, office, to confer with E. H. Wilson, land commissioner of the company.

McWhirter explained that the vast possibilities of bringing out settlers from the crowded parts of the British Isles and settling them on the idle lands of Canada were under consideration.

He said his present trip was for the purpose of gathering information.

### Soldiers' Lands Bill

#### To Provide For Revaluation of Soldier Settlers' Land

Ottawa—The senate gave third reading to the government's bill to provide for the revaluation of soldier settlers' land.

As the bill now stands soldier settlers will apply to the revaluation board for revaluation and if no agreement can be reached the settler can appeal to the exchequer court in order that body may deal with revaluation cases. The decision of the court will be final.

### May Be Raised Again

#### Scarcity of British Ships Affect Rates on Grain Shipments

London—The recent grain shipments to the United Kingdom from North and South American Atlantic ports, already increased through the scarcity of British ships, in operation owing to the coal mining stoppage, are expected to be boosted again unless there are indications the miners will soon return to work. Rates on shipments from Canada have increased a little less than three cents.

Approximately 40,000 persons are employed in these operations.

### NEARING END OF THE COAL STRIKE IN GREAT BRITAIN

London—Indications of early negotiations for coal peace were seen in the announcement by Prime Minister Baldwin of postponement for a week of action on the bill authorizing eight hours of work in the mines. Mean while the bill for the re-organization of the mines is being pushed. It is said to be the result of a bargain between the Laborites and Prime Minister Baldwin.

If Labor is satisfied with the reorganization plan, it may not be necessary to proceed with the eight-hour bill, as miners may agree to accept a small reduction in wages for a period rather than an increase in hours.

Herbert Smith, president of the miners' federation, indicated no definite decision may be reached to settle the issue of an increase in hours.

Secretary Cook, of the miners' federation, is still asserting "not a penny off, nor a minute added," but there are strong indications that the miners are getting tired of Cook, and it is believed he will be forced in labor circles that as soon as the strike is over he will lose his job.

The principal feature of the miners' reorganization bill is amalgamation of the mines.

### SAYS WEST IS NOT COMPETING WITH THE EAST

Toronto—If the bankers of the west and the farmers of the west would get together, the majority of the problems facing agricultural Canada would immediately vanish, in the opinion of H. G. Gardner, Saskatchewan's youthful premier. Mr. Gardner told the Liberal Association here that the west was not competing in the marketing of wheat with the east, but with the Northern United States, the Argentine and Siberia and for that reason the cooperation of the eastern provinces was much to be desired.

Dealing with transportation to the seaboard of western grain, he expressed the hope that some day there would be a direct shipping route from the head of the Great Lakes to Montreal. He looked for a largely increased population in the near future and said that for that reason Western Canada would need every trade route across the Atlantic Ocean.

### Welcomes Famous Flier

#### New York Gives tumultuous greeting to Commander Byrd

New York—Lt. Commander Richard Byrd Jr., leader of the first expedition to fly over the North Pole, upon his return home received a tumultuous greeting in which representatives of the nation, state and cities joined. Thomas Edison jammed the waterfront at the Battery and lined the sidewalks of the parkway to catch a glimpse of the polar flier.

Led by two bands, one representing the navy and the other the New York National Guard, the procession started up Broadway.

Prominent among the well-wishers were members of Lieutenant Commander Byrd's own family. His mother, his six-year-old son, Richard, and his wife.

Crowds roared their ovation as the procession moved along the famous thoroughfare at high noon.

### Advocates Third Route

#### Hudson's Bay Railway Will Solve Western Problem Says Premier Gardner

Ottawa—Premier James G. Gardiner of Saskatchewan, addressing a meeting here, said the farmers of Western Canada are different from those of Eastern Canada.

Yet to be a great country, east and west must work in harmony, he declared.

The trade route problem of the western provinces is the cause of many inconveniences to the farmers there. The new Pacific route is solving that problem, yet a third route should be opened by way of Quebec in order to give means of shipping the increasing crops of the prairies. He said the Hudson's Bay route would give easy means of shipping to European markets.

### Discard Washington Naval Agreement

#### U. S. Delegates Amazed At Action Of Experts At Geneva

Geneva—The essential feature of the Washington naval agreement, namely, comparison of naval strength by tonnage, was discarded by the naval experts on disarmament to the evident amendment of the United States delegates.

This discussion created a sensation because it affords a lineup on continental Europe's view on extension of the principles of the Washington accord.

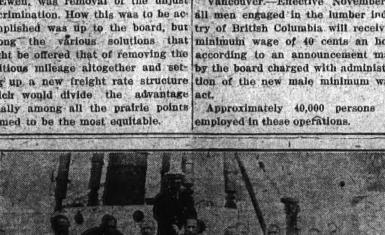

### To Gauge Public Opinion

Bayfield, Ont.—The government is going to canvas public sentiment from one end of the province to the other regarding the Ontario Temperance Act, and when convinced on the proper course to pursue will submit that course to the people, Premier G. Howard Ferguson said in addressing upwards of 5,000 people assembled here under auspices of the Western Ontario Conservative Association.

#### Appointed Chairman

Ottawa—The minister of labor has appointed Mr. Justice Jamont, of the Saskatchewan Court of Appeals, to be chairman of the Board of Conciliation in the Winnipeg electric dispute. The other members of the board are F. Dixon, of Winnipeg, representing the employees, and J. B. Coyne, of Winnipeg, representing the company.

Following a recent decision, the San Canal is to be deepened from 31 to 35 feet, and widened from 310 to 360 feet.

British Rotarians for Denver Convention

Above is a party of British Rotarians on their way to the international Rotary Convention to be held at Denver, June 13 to 20. Front row seated are: C. White, President of the Rotarians, Belfast; J. E. Appleby, Leeds; H. Winnicott, Plymouth; J. E. Webb, Truro; L. F. King, Bournemouth. Ladies are: Mrs. C. White, Mrs. Appleby, Mrs. Webb, Mrs. Smith, Miss Coghill, Mrs. Kingston. Back row: J. Smith, Liverpool; W. Curdy, Dublin; C. Kingston, Dublin; J. Riddell, Doncaster; Edward Willens, Brussels; G. Charlesworth, Doncaster; W. Webber, Plymouth. Seated at back of group is G. Woodward, Chief Officer of the Canadian Pacific liner Montcalm.

On their return from the convention this party will travel through Canada via Canadian Pacific lines, stopping at Winnipeg, Toronto and other cities.

F.R.C. NATAL LETTERS

AND ADVICE

The system of distribution of pre-natal literature recently arranged by the Canadian Agency section of the Canadian Council on Child Welfare and the provincial health departments of the various provinces has proved successful. Upon application to the provincial department of health or to the Canadian Council on Child Welfare or Ottawa, a series of pre-natal letters is forwarded regularly, free of charge. Applications have been received from scattered outposts, far into the interior of the provinces, scores of miles from the railway and miles from a post office. Other applications come from the large centres of population with well established health services, where doctors or nurses have advised their patients to avail themselves of the excellent information available in these letters.

The letters have been prepared by a specially well qualified committee of medical men, and were distributed only after consultation with the provincial departments of health. They are designed to contribute to the success of the Canadian people in making to reduce their infant and maternity mortality rate, and to improve the whole Dominion by carrying pre-natal advice and information to the expectant mother in the home.

A letter to the provincial department of health of your own province, or to the Canadian Council on Child Welfare, Plaza Building, Ottawa, will bring this letter service free.

Here are a few figures that might interest the ratepayers of Blairmore School District No. 628 at the present time: One year's salary to former staff of teachers amounted to \$18,500 proposed reduction to \$16,900. Present staff receives \$16,900; if increases asked for are granted that figure will be around \$17,000, or \$850 less than formerly paid. Adding expenses in connection with the regrettable controversy, including legal fees, etc., to the \$16,900, it would be very interesting to know just how much has been saved for the ratepayers of the district during the year.

**COWLEY HAPPENINGS**

H. D. McMillan spent the week end at Waterton.

Mrs. Murphy and children were visitors to Hillcrest on Tuesday.

Miss Holmes has left the Cowley hotel and gone to her ranch near Steavely.

Miss Essie Bennett, who has been attending school in Chicago, has returned home for vacation.

Miss Augusta Edwards has returned home from Columbia, Mo., where she has been attending the state university.

The twenty-fourth of June being annual installation day for the local Masonic Lodge, they entertained the lodge from Pincher Creek and visitors from the Pass.

The Women's Institute held their monthly meeting at the home of Mrs. Snyder on Thursday last. Mrs. Griffith, Mrs. Morrison, Mrs. Tustian and Mrs. Bouthillier were on the entertainment committee. Mrs. Beets and Mrs. Lawrence Cleland joined the organization at this meeting. The next meeting will be held at the home of Mrs. Bouthillier in August.

**I AM THE LAUGH MAKER**

I am with the Heritage Brothers' Trained Wild Animal Circus that will be here in Blairmore on Thursday, July 8th.

I am the laugh maker of the world. I am the antidote of griefs that poison the system and dash the edge of the human mind. The world needed a good laugh. So I was born. They call me the fool, but it takes a wise man to play my part.

I run the scale of human nature. I must know many many notes, but never touch the minor key.

I am no new institution. Since the first man allowed his hairy face to spread in a smile there was a demand for me.

Ancient Kings employed me and gave me a place of honor near the throne. I was called the Court Jester. While others trembled in the presence of Majesty I cracked Royalty under the chin and dispelled his frown. Today under a cloud of canvas I greet you and the world. I make them laugh at my antics, and all children crow me king. I live two lives. Behind the scenes I have a face much like yours, and probably I have children at home. In the sawdust ring I have a white face with grotesque designs painted about the eyes and mouth. In private I am known by none. In public I am acquainted with all. Don't visit me unless you can not stand the heartiest laughs of your life, for I am The Heritage Brothers' Trained Wild Animal Circus Clown; and I have many brothers equally as funny as I.

See me in the parade at noon.

A number of local friends have recently received letters from George Stevens, now in Vancouver, where he is general secretary of the B.P.O.E. George appears to be getting along fine. Mrs. Stevens and children will shortly leave Blairmore to join him and make their home in Vancouver.

Daniel D. Riley, of High River, has been appointed to the senate to succeed the late Sir James Lougheed.

A charge of abduction is being laid against the devil in connection with the recent disappearance of Mrs. Aimee Semple McPherson. The date of the trial has not been set.

Announcement is made at the Winnipeg headquarters of the C.P.R., that Mr. F. W. Peters, general superintendent of the British Columbia district, will relinquish the duties of that office on July first, to be succeeded at Vancouver by C. A. Cotterell, who was superintendent of the Lethbridge division in 1916 and 1917.

**Man's Oath Is Extraordinary****Pledge Required Of Deemster of Isle of Man**

The following is an extraordinary oath taken by the deemster of the Isle of Man, on entering office:

"By this Book, and by the Holy Contents thereof, and by the Wonderful works that God hath miraculously wrought in the Heaven above and in the Earth beneath, in six days and seven nights, I the person being sworn do swear that I will without respect, favor or friendship, love or gain, consanguinity or affinity, envy or malice, execute the laws of this Isle truly between Sovereign Lord the King and his subjects within this Isle, and betwixt party and party, as indifferent as the heaving's backbone doth lie in the midst of the fab." So help me God and the Contents of this Book. This oath has been taken by many deemsters for a thousand years.

Strange, Romantic love Adventures of the Flapper you know.

## CHAPTER VIII.

## Joanna Makes a Decision.

After a time the girl, huddled up on the floor in a heap of bobbed brown hair and clinging gown and silver stockings, lay still, stilled the birth of a new colt and stopped the convulsive tremble of her bare, velvet soft shoulders. Her eyes, as quick to dry as to dim with moisture, "which is the way of youth, selected a spot on the parlor carpet; just beyond her toes, and fixed on it. So she sat very quiet, and stared, straightening out the jumble of her bitter, very bitter thoughts. She realized that she couldn't think sensibly, for the things that had happened during the hectic day were not sensible things—any of them.

It was a trait of her's to rebel when things weren't right; she couldn't analyze, or probe for reasons, or ask herself if she were to blame. That is, she often did; if she were to blame, then she was invariably guilty, and invariably innocent. "No!" That was when the spirit of Joanna was submissive and amenable to discipline, and to the learning of lessons out of experience. That was a long time ago—before she had to make her own way—and to compete with other girls—with the ones who were on the square, as well as those who weren't. She gradually lost her sense of submissiveness then. Whoever critized her, except herself, was wrong. As her tongue grew sharper, more and more accustomed to giving than received; and her lips grew redder and more provocative, and her skirts became shorter, everybody—!

Even John! The one thing she admittedly loved. Even he could never understand a girl—a real square and above-board girl who had to fight like the devil to keep up with the other girls of this day and age! John had objected to almost everything she did or wore or said. He'd preach by the hour. Once, in this same parlour,

**OPERATION LEFT HER VERY WEAK**

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I was so weak that I was unable to move a chair. For four months I have had most frantic spells of pain and suffering until I thought there was nothing left but not to be of any help for me. I had very severe pains in my abdomen and legs, and I suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. I took a few tablets of Lydia E. Pinkham's Vegetable Compound at once and I look it. I started a second bottle, and to my surprise and joy the pains in my abdomen and legs disappeared and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all I have taken about 150 tablets of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two boxes of Lydia E. Pinkham's Blood Menders, and have had a wonderful result. Wash.—Mrs. L. LAJEUNESSE, Box 103, Coniston, Ontario."

I took it. I started a second bottle, and to my surprise and joy the pains in my abdomen and legs disappeared and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all I have taken about 150 tablets of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two boxes of Lydia E. Pinkham's Blood Menders, and have had a wonderful result. Wash.—Mrs. L. LAJEUNESSE, Box 103, Coniston, Ontario.

**Good for All the Family**

It makes them smile—  
it's sure worth while.

After every meal

She'd given up, long ago, her struggles against the language of her young little roomers. "Are you really sure, Jo?" she asked, her words coming slowly, "that you haven't had what you call a smash? All that money you had in your pocketbook, and you say there's more besides. You know—?"

Before the steady gaze of the girl on the floor, the landlady faltered. The eyes that stared at her made her uncomfortable—uncomfortable with her doubts. You see, Jo," she argued, plaintively, in her half-conviction, "the things, girl like you talk about, and knows about, and the places you go. George wears her clothes too tight and says that's what girls are supposed to do nowadays. And you wear dresses that you ought to never cross your knees in—you oughtn't to sit down at all. I'm worried me a lot. And you smoke, Jo, and I heard you swear, too. That's why John was ready to believe—!"

"You mean that's why you believe, too?"

"I won't believe, if you tell me it isn't so, Jo. I'll just believe in you and I'll take back the money you gave me." Suddenly the landlady was confused. "I'm sorry, Jo, but I put the five hundred dollars, and nobody knows what a God-send it would be to me, in the pocket of your old wrap. The coat's on your bed, now. If you say it comes to you all right, like you say, then I'll take it, dear, and bless you for it."

Joanna scrambled onto her feet, straightened her frock, brought a strap that had fallen back, onto her shoulder and, without a word, ran up the stairs to her room. When she reappeared she held the bill. She put it into Mrs. Adams' hand and folded the worn fingers about it. Neither she nor the landlady spoke. Mrs. Adams pulled the bobbed head down and kissed it.

"For once," Joanna remarked, when she straightened up, "I want a drink I'm going to wait until George comes in. If she makes it early enough, and if her boy doesn't get the air too quick I'll buy him a taxi while we hunt an all-night bootlegger."

George arrived, early—one o'clock.

Her companion of the evening was sufficiently equipped to supply Joanna's unaccustomed need, and good excuse for him to leave.

Joanna's bitterness was

so great, so far banished, when a streak of gray, stealing across the court of sordid backyards, warned the two pyjama-clad girls propped up in Joanna's bed, that if they were to stay sleep at all, against the excitement of the day to come they must get between the covers and trust to the household to awaken them. Many houses had been built, some of stones that were destined to stand forever, some cards that would be blown away.

(To be continued)

## World Wants Trained Minds

## Most Important Positions Go To Those With University Training

That was what she could do. But this had been a deep hurt. Being only unjust, the bitterness of the wound was just a bit magnified by Joanna's admission to herself that after she hadn't had near so much right to fight back. He'd come to her, now, would John. Come without calling, and say, "I'm sorry."

When she had reluctantly sealed this little bundle in her reticule, Joanna was conscious of Mrs. Adams sitting on the sofa in a corner of the room. She had come in quietly and had not disturbed the reflections of the girl on the floor. Joanna smiled up at her wavy.

"Funny, isn't it?" she said. "Everybody thinks! It seems nobody can believe anything, these days, that's good to believe. About girls, I mean."

Then the chauffeur. He was earnest, too, because he thought he had a perfectly ripe date with me, and deliberately grabbed it. Then Cohen, who as much as told me that furs for made were symbols of darkness. Now John! Funny, isn't it?"

The landlady, whose kindly old face was a mirror of all her mental transformations, nodded her head.

"Yes, Jo, it's funny, but maybe it's not so funny, either. Sometimes I don't sleep well at night, and when I do, I dream of George and the others. I've got to have a good night's sleep, and I do, but I dream of George and the others."

I could never do the things other girls did, that is, in the line of sports, skating, etc., and could never depend on myself at work.

taking out six months ago. I began

to be bothered with. She said that mothers who were any good were like flannel underwear. Worse well, I think she said, but didn't have class."

"Yes, that's like George," Joanna agreed, from her place on the floor. "But I don't think she's really in bad. She's in with a crowd that she hasn't got enough sense to know when she's skidding. But you don't always have a smash when you skid, you know."

Mrs. Adams knew only vaguely what Joanna was trying to say.

Miss L. L. Ross, Bellfield, also writes:—"I am only twenty years old, but have suffered from heart palpitation and nerve trouble for several months."

"I could never do the things other girls did, that is, in the line of sports, skating, etc., and could never depend on myself at work."

taking out six months ago. I began

This advertisement is not inserted by the Alberta Liquor Control Board or the Government of the Province of Alberta.

**Items of Local and General Interest**

The big Calgary Stampede opens on Monday next.

Major School, of Claresholm, is now camped up the North Fork.

The local public and high schools closed yesterday for the summer holidays.

J. F. Lymburn, the new attorney-general, was elected on first count at Edmonton.

Mr. Sterling, provincial manager of the Canadian Oils, Limited, spent Friday last in town from Calgary.

**PIANO LESSONS**—Beginners and advanced pupils. Apply Mrs. J. Huguet, Box 2019. [18,17,1,15]

Some oil companies are now being incorporated with federal charter, with stock of no par value.

Hon. Arthur Meighen was sworn in as prime minister at Ottawa on Tuesday following the resignation of Mackenzie King.

A successful tea and sale of home cooking, etc., was held at the home of Mrs. L. P. Robert on Tuesday afternoon, under the auspices of the I.O.D.E.

Mr. C. J. Tompkins is attending the annual convention of Sun Life Assurance Company at Vancouver. Returning, Mr. Tompkins will consult an eye specialist at Calgary.

According to the Dominion year book, just issued, the total lumber output for Alberta during 1925 was valued at \$841,000. A total of 32,700,000 feet of lumber was cut.

The will of John R. Booth, Canada's foremost lumberman, who died last fall, has been filed in the surrogate court at Ottawa and disposed of an estate estimated at eight million

staff of teachers was dismissed because they refused to accept reduction in salaries. Now watch the action of the board's economists on the question of increase in salaries.

McKinley Cameron's mudslinging campaign did not help out the Conservative party much and in future campaigns it would be an excellent idea to see that he is placed in the discard.

Twenty years ago, Nanton Masonic Lodge attended service in a body on a Sunday afternoon in St. Andrew's hall. The sermon was delivered by the Rev. J. F. Hunter, late of Blairmore.

Rev. D. K. Allan and family passed through Blairmore on Monday morning on their way to their new home at Westlock, Alberta. Mr. Allan has been pastor of the Institutional church at Coleman for about ten years.

At the Blairmore athletic grounds a grand stand has been erected and some other improvements made that will no doubt be appreciated by our sport-loving public, particularly the extra gate provided, through which Sootch folks may enter after the hat has been passed around.

Mr. Bert Huffman, of Langdon, father of Milo B. Huffman, former line operator with The Enterprise, after being reported dead and gone, writes back to say that he is still alive and that general conditions (on earth, we presume) are improving. Some other Bert Huffman recently passed away in California.

When the salary question is to be considered by the school board, every ratepayer should be given an opportunity to attend and above all should hear the reports of the inspector and the principal on the work of all departments of the school. And such a meeting should not be held in the secretary's office where there is seating capacity for only the board.

Chautauqua guarantees at Ladner, B.C., had to meet a deficit amounting to \$350 each.

During the week, a very large number of tourists stopped at the Blairmore free campsite.

Archie McTeer and Billy Mulholand are considerably in the limelight of baseball at Calgary.

According to yesterday's issue of the Lethbridge Herald, a split has occurred in the Ferke of the Progressives.

A modern martyr is a wife who has to give up buying the new coat she wants, because her husband just has to pay the grocery bill.

Lethbridge city is staging a big historical pageant in connection with its fair which starts today to celebrate the 20th anniversary of the city and the 21st of the province.

Miss M. E. Davis, of Mount Royal College, Calgary, visited her cousin, Miss M. T. Davis, vice-principal of Nanton high school, for a few days over the week end—Nanton News.

The Consolidated Mining & Smelting Company has staked about thirty phosphate claims north of Alexander and Michel creeks, which is about six or seven miles south-east of Michel.

Miss Enid B. Cole, of Bellevue, is open for engagements in public entertainment, costume sketches, singing, arranging and directing entertainments, etc. For information, phone 1898.

Constable Hammond, of the A.P.P., who a few weeks ago met with a motor cycle accident in East Blairmore, was able to come out of hospital last week and hopes soon to be able to get around to his duties.

That guy Potts, who went to the polls and succeeded in pulling sixty-one votes from the twenty and more thousands of Calgary voters should indeed consider himself popular. Arthur Denison pulled nearly as many from The Gap, with a population of one family.

Evenly some mean cuss has stolen the broom from the kitchen on the tourist campsite, for a recent visitor there left the following note: "Your town is fine and your camp is a dandy; our motto is good. But how the h can tourists keep the camp clean without a broom?"

Further evidence of the intention of the Consolidated Mining & Smelting Co. of Canada to thoroughly prospect the deposits of phosphate which are known to exist near Michel, is seen in the notices which they are publishing at present to shortly undertake the prospecting of a further large area there. These notices taken collectively, embrace an area of something like thirty square miles—Kinberry Press.

Tony McKinley says that between the ages of 15 and 20 a woman is innocent and therefore dangerous; between 20 she thinks she is sophisticated and is therefore dangerous; between 20 and 30 she is sophisticated and therefore dangerous; between 30 and 40 she thinks she is misunderstood and is therefore dangerous; after 40 she is misunderstood—but then you need not worry, you won't get that far before you are speared.

Another highly efficient use has been discovered for newspapers. An exchange says: "When your car gets stuck in the mud and the rear wheels merely spin around and your friends advise you to call for help, get a bunch of newspapers, slip them under the rear wheels, turn on the gas and see the car come out of the mire." Probably the influence of the advertisement. Many a business concern stuck in the mire has been pulled out by advertising.

Representing capital running into billions of dollars, a party of around eighty prominent bankers, financiers and men representing commercial and business interests, recently arrived at the Windsor Street Station, Montreal, from New York, and made a tour of the pulp and paper industries and the new aluminum districts of the St. Maurice and Saguenay Valleys in Quebec Province, with a view to the future development and prospects in those great developments. The party was accommodated with five twelve-section compartments and drawing room sleepers, two dining cars and the private car "Montmorency," the whole being C.P.R. equipment.

Blairmorites will be found at the following sport centres today: Coleman, Fernie, Pincher Creek, Waterton Lakes and Calgary.

The ladies of St. Anne's church desire to thank all who assisted or participated in their recent sale of home cooking, etc., held on Mrs. Green's lawn. The handsome sum of eighty-two dollars was netted.

Stormont, the best mine in Nova Scotia, when gold mining in the province was an industry, is to be re-opened. Until it closed down, twelve years ago, Stormont mine had produced over \$75,000 tons of ore, giving an average of free gold of \$4.13 per ton, or \$222,500 during its activity.

A record single shipment of Indian motor-cycles, consisting of 85 cases, for Asia, Australia and Africa, arrived in Tokyo, Japan, having come forward by Canadian Pacific Rail and steamer lines. The demand for motor-cycles in Japan is a steadily increasing one, being a cheap and convenient method of locomotion and well suited to the somewhat narrow roads of that country.

Twenty-one British Rotarians recently came over to Canada on the Canadian Pacific liner "Montcalm" en route to the International Rotary convention at Denver. On their return trip they came back through Canada, travelling to Winnipeg and thence to Brandon, and taking the Great Lakes trip via C.P.R. steamboat to Port McNicoll. They returned to the Old Country by the C.P. liner "Montcalm."

The Canadian Pacific Railway has just added two of the new Mount Class observation cars to those running out of Montreal. Five more are just about ready to run and the balance of four cars will be ready for service shortly after these. They are all steel cars, made up of three compartments, and one drawing room with a parlor room and observation platform. They will be a feature of long-run trains on the C.P.R.

The English football team, now touring Canada had one of the most remarkable streaks in the history of any athletic body. Staying for a week-end at the Chateau Lake Louise they had a practice at an altitude of a mile and a half above sea level, where the thinness and dryness of the air had a wonderful effect upon them. Their captain thought it remarkable that prize-fighters in training had not utilized the marvelous properties of this training camp.

A fourteen-car special Canadian Pacific Railway train carried nearly as hundred of the most prominent representatives of banking and financial interests of New York City and State to Quebec, where they held their 33rd annual convention of the New York State Bankers' Association at the Chateau Frontenac recently. Included in the party was Col. J. W. McIntosh, Comptroller of Currency, Washington; and W. J. Donovan, Assistant Attorney-General of the U.S. and several financial specialists of New York's leading newspapers.

While Canadian Pacific train No. 87 was standing on public crossing preparatory to taking passing track, an automobile, occupied by four persons, ran into the side of the train, badly damaging the auto. In another case, a driver said he saw the train and heard the whistle signals sounded, but too late to avoid running into the side of the engine. Yet again, a touring car, travelling about 25 miles per hour, ran through the crossing bar at a public crossing in Montreal but did not stop. No injuries were reported in all three incidents.

Representing capital running into billions of dollars, a party of around eighty prominent bankers, financiers and men representing commercial and business interests, recently arrived at the Windsor Street Station, Montreal, from New York, and made a tour of the pulp and paper industries and the new aluminum districts of the St. Maurice and Saguenay Valleys in Quebec Province, with a view to the future development and prospects in those great developments. The party was accommodated with five twelve-section compartments and drawing room sleepers, two dining cars and the private car "Montmorency," the whole being C.P.R. equipment.
